ScreeningIntelligence.com
Intelligence to Make Informed Decisions™

08/30/2013 Background Screening Press Release

Screening Intelligence Increases Background Search Security with SSL

At ScreeningIntelligence.com, we recognize that our clients not only want accurate information presented in an easy-to-read format when they place an order for a background search, but they also are looking for secure background screening options. We want to be able to provide our customers with the background search security they are looking for online.

 With that in mind, we have recently invested in a GeoTrust True BusinessID with Extended Validation SSL Certificate. This security certificate displays our site name in green on the URL bar, allowing our customers to instantly know they are visiting a secure and encrypted site. This means that no one will be able to eavesdrop on their online activity while they are logged into ScreeningIntelligence.com. It also ensures that their background search security and private information is safe when they complete an order with us.

In addition to showcasing our site name in green, the GeoTrust True BusinessID with Extended Validation certificate also provides employment screening customers with valuable information with the click of a button. Once a customer clicks the green name, they will instantly see all of the security information they need to know, including the name of our company, where we are based out of and what organization completed the verification of the site. We feel that the ease of use of this certificate, as well as the prominent security displays, make it the best SSL certificate for our organization.

For years, we have provided our customers with accurate, reliable and secure background screening packages. We recognize that our clients need the information available in our reports to make important decisions, but we also know that our customers value their privacy and security. We want to make sure that we take all of the measures necessary to ensure that our customers trust us to provide them with the background search security they need. We know that background search security is your top priority, and we want you to know that your privacy and security is our largest concern as well. We are committed to our customers and committed to improving their experience at ScreeningIntelligence.com.

About Screening Intelligence Background Checks
ScreeningIntelligence.com provides accurate and affordable background check solutions to help employers make informed pre-employment screening decisions. County criminal data is retrieved from thousands of local and county courts in all 50 U.S. States. Pre-employment screening and tenant screening services include: comprehensive criminal background reports, federal background reports, county background checks, sex offender registry search, national eviction reports, and social security traces.
